Perkins, senior vice commander of McGregor post, and Comrades T. D. Pond and Henry Torrey will go to New London today (Friday) to attend the annual encampment of the state department of the G. A. R. The national commander will be present this evening and will give an address.

PIONEER HOSE CO.

Elects Officers for the Ensuing Year.

Mr. and Mrs. Michael Aylward, re-cently married, entertained a party of relatives at a dinner given at the home of the groom's father, John Aylward, of High street, on Thursday evening. Pioncer Hose company, No. 2, have elected the following officers for the ensuing year: Foreman, John A. Gor-don: assistant foreman, Herbert R. Neff: secretary, Thomas A. Conwell: treasurer, Charles H. Myers; steward, Charles W. Nado; collector, Albert H. Rain: entertainment committee, Herbert R. Neff, Albert T. Day, Charles H. Myers; sick committee, Thomas A. Conwell, Walter L. Chase, Charles W. Nado: auditing committee, Albert T. Day, C. W. Hutchins, Walter L. Chase.

The new 400 horse power engine for the Danielson Cotton company has arrived here and is ready to be put in its position at the mill. The fiywheel on the engine weighs about ten tons. The engine will be placed in the main part of the old mill, close to the present engine house.

To Danielson.

A reception was given for Rev. and Mrs. John K. Moore in the Congregational church parlors at Thompson Wednesday evening.

Mrs. W. E. Brown of Pomfret Center has been awarded a prize for a poem which she wrote in response to firm.

FUNERAL.

The funeral of Louis Heneault, who died in Elmville, was held from St. James' church Thursday morning at 9 morning at 9 o'cclock. Rev. J. Faure was celebrant of the solemn high mass of requiem, Rev. Celestin Crozet was deacon and Rev. U. O. Bellerose of Wauregan was sub-deacon. After the mass the body was taken to the railroad station and taken on the 10.11 train to Woonsocket, the former home of the deceased, for burial. The bearers were the four sons of the deceased—Charles J. of Norwich, Armand of Hartford Clovis J. of Bristol, R. L., and Arthur J. of Woonsocket. Louis E.

After or ming through almost the en-tire length of Water street without enthe length of Water street without the countering any very difficult going, the sewer construction gang hav euncovered a ledge near the junction of the street mentioned with Main street. Dynamite is being used to blast out the rock, and as a consequence the work is being the general in all propability the connection with the Main street sewer namite is being used to blast out the rock, and as a consequence the work is point design. In all propability the connection with the Main strain sever will be made some time next week and it will not be long after when the outlet into the Coinchaug tiver may be dispensed with and the objection to its being semoves.

Lease of Whalen Farm Expires Soon The matter of giving a lease of the Whalen farm on Lower Dyer street purchased by the borough to get a site for sewer filter beds, is left in the hands of the warden and court of burgesses. When the farm was purchased

hands of the warden and court of burgesses. When the farm was purchased last year the officials did not believe it within their power to give a lease to the present occupant of the farm for a longer period than their term of office, and, accordingly, leased it for a period of one year for \$150. That lease is soon to expire, and it is understood that a five year renewal would be agreed to by the man now running the farm. There is a question, however, as to whether the giving of such a lease would be for the best interests of the borough, and the matter will not be decided until the board has fully investigated the pros and cons of the situation.

MISSING EDWARD HARRIS.

Well Known in Putnam-Family Summer Residents of Putnam Heights.

of the borough, and the matter will not be decided until the board has fully investigated the pros and cons of the situation.

It may prove desirable for the borough to retain only such a part of the property as is needed for a filtration plant, and if this proves to be the case it may be decided to sell the remainat a sanitarium near Kingston, N. Y. His mother recently visited him there and he accompanied her to the train when she was leaving. He did not rewhen she was leaving. He did not return to the institution as it was expected he would and he has not since been seen. The boy is 17 years of age. Advertisements in New York papers of Thursday offer a reward of \$1,000 for information as to his whereabouts. The advertisements describe him as quite tall and siender and of nervous disposition. He was well dressed when last seen. The published notices of his disappearance also suggest that he may possibly seek employment about may possibly seek employment about some moving picture theater, as a hotel beliboy, or perhaps as a farm-hand. Young Harris is well known in Putnam, where he is frequently seen during the summer months. Although he is accustomed to spend a part of each year here, he has not been seen or heard of hereabouts since his flight from the place where he was staying at Kingston.

Not All Registered. Several hundred dogs in Putnam re-main to be listed.

1,138 Telephone Stations.

Putnam has 1,138 telephones, according to the current number of the Telephone Bulletin. The Putnam division covers the greater part of the northern end of Windham county, serving all the towns, in fact, not included in the Willimantic Danielson and Moosup division. The area covered is in excess of that included in a majority of the telephone divisions in the state, including, as it does, all the territory in the abolished Pomfret division. Pomfret, Pomfret Street, the Woodstocks and Thompson all served from the Putnam office, the Massachusetts and Rhode Island lines being the limit of the division. 1,138 Telephone Stations. it of the division.

Affects Local Property Owners. Putnam people are much interested in the announcement that the Danielson Cotton company will abandon indefinitely the project of bullding a dam across the Quinebaug at Cotton's bridge, because of the high prices asked by river-abutting property owners for the damage that will result to their land by flowage. Many of these properties are in the town of Putnam, the town farm being one holding that was to be affected by the building of the dam. the dam.

was the guest Thursday of Mr. and Mrs. Walter Shea. All that we know about sleep is that we know nothing about it. The ven-erable John Bigelow-Poultney's father—wrote a book not long ago on "The Mystery of Sleep," and left it more of a mystery than ever. A famous psy-chologist had lately considered the a mystery than ever. A tamous pay-chologist had lately considered the subject in a book that will cure the average case of insomnia if the victim attempts to read it. The effects of average case of insomnia if the victim attempts to read it. The effects of sleep are known, but not its cause or conditions. A medical journal says that brain workers should get all the sleep they possibly can, whether it is nine hours or only five. Some men sleep slow and jothers fast. The secretary of a manufacturers' association in Boston, a man verging on middle age, has for years worked at high pressure and got along finely on an average of three hours' sleep a day. Most intellectually active men, however, can't knit up the raveled sleeve in less than eight or nine hours. They sleep slow.

Everything is being investigated in this inquisitive age. Will a part of the Rockefeller Foundation be devoted to an investigation of the causes and conciti ms of that unknown state in wrich one third of human life is passed, and about which we know absolutely nothing?—Boston Globe.

Chili and Peru Quarreling. The witherawal of the Peruvian legation from Chili creates once, more a critical situation between the South American republics mentioned. The relations of the two countries have been more or less strained for a considerable time owing to the refusal of Chili to restore the conquered proyinces of Tacus and Arica to Peru, as provided in the treaty of peace negotiated at the close of the war between the countries nearly 30 year ago.

The immediate cause of the renewal of the ill feeling was the expulsion of the Peruvian priests from the disputed provinces by the Chilian government. Whether the priests were interesting themselves in the political dispute between the countries or not does not appear, but their expulsion has been undoubtedly construed by Peru as being connected with the Tacu-Arica dispute. The withdrawal of the Peruvian le-

dispute.

The trouble between the two republics, although of long standing, is very difficult of adjustment. Although, according to the treaty, Chili was obligated to restore the provinces to their old-time sovereignty at the end of a period long since past, the new interests that have developed since the treaty was entered into have rendered the Chihanz unwilling to release their hold on the rich prize they won by force of arms.—New Orleans Picayune.

Time for Another War. The naval bill is up for discussion in the house. Now look out for another war with Japan.—St. Louis PostPHYSICIAN SUED.

Aggrisved Husband Wants \$25,000 From Hartford Bachelor Doctor.

Dr. Charles E. Froelich, who is a member of the Connecticut Medical society, and who for many years practiced in Hartford according to the allopathic school of medicine, but who is now retired, has been made a defendant in a suit for damages of \$25,000. Walter A. French, piaintiff in the suit, lives in Red Bank, N. J., but at one time he lived in Hartford. He claims that Dr. Froelich alienated the affections of his wife Sadie.

Dr. Froelich is about 65 years old, and never married. For many years until he retired from practice a short time ago he had an office on Pratt street, close to Trumbull street, and he made his home at No. 255 Trumbull street. Mrs. French is about 30 years old and is now living with her sister in East Norwalk. Her name was Sadie E. Thayer at the time of her marriage with Mr. French in November, 1900.

Mr. French and his wife came from

Mr. French and his wife came from New York to Hartford to live about three years ago and took up a rest-dence at No. 255 Trumbull street. While there they formed the acquaint-ance of Dr. Froleich and later Dr. Froelich bought a house on Oakland terrace, and as French and his wife had furniture, they fitted up the house and went there to live, the rent being free to them, it is alleged, in consideration of their providing a room and board for Dr. Froelich. French and his wife separated about a year ago.

Just What Everybody Knew Before. Just What Everybody Knew Before. The inquiry at the statehouse into the high cost of living is getting about where we supposed it would. Men in various lines of trade come in and testify as to the cost of articles in which they deal and as to their theories concerning the reasons for any advance in prices there may be. Occasionally one comes along to assert that the prices of his goods have not risen. The manager of a department store was before the commission last week telling how many things which go to fitting up a house are as cheap as they were five or ten years ago and how some things are even cheaper. He allowed that a are even cheaper. He allowed that a young couple could go to housekeeping as inexpensively as they could several years ago; but he did not say, or if he did he was not reported, that the he did he was not reported, that the tendency to buy more things for the house is very marked, and that the shopkeepers are not backward about encouraging it. But it needs no commission, and no expenditure of \$15,000, to bring this truth before the public. The newspapers have been persistently calling attention to this phase of the cost of living problem, as well as to everything which has so far been stated at the Boston hearing. By the way, one of the witnesses at that hearing faild the blame of the entire agitation on the newspapers, and no doubt some of it belongs to them.—

New Bedford Standard.

Taft and Connecticut Boys. President Taft is especially fond of Connecticut boys. Whenever he meets with a clump of them there is something doing. A group of them was here this week from Hartford, where they attend the Noah Webster school. They were presented to the president

They were presented to the president, and when Mr. Taft learned that they were from Connecticut he was delight-

This is the time of year when a person gets discontented with his sur roundings and wants to flee to the seashore, the mountains, or the fishing pools. It is a good thing to do, good for the body and the soul. But everybody cannot do that. It takes money and time, and most of us fellows are not smeared with the filthy lucre—(not to reflect upon those who are) and so have to stay at home and court the

have to stay at home and court the blessing of one's own penates.
But we have a scheme for all those who are not doomed to some rampant summer resort; and that is to get up these mornings at 5 o'clock, and go forth in the gray dawn, when the birds are starting their songs, and the buds are beginning to break into bloom. Attantic City and the White mountains are pale and insipid compared to an experience like this. These lovely mornings, now and on through the mornings, now and on through the summer, are made for souls that car appreciate the beauty with which Goo has festooned this t world. Get up and see. Don't tak our word for it. If your heart is not given over to swim and social whirl you will almost feel the holy presence smiling in the east, and behold a near angel in every bird that sings about you.—Ohio State Journal.

The New Disease. "Telephone nerve" is a new com-plaint. Those who run into a neigh-bor's house to call up somebody with-out expense are the real cases, though the doctors don't include them.—Bos-ton Herald.

Riding the Waves. A wave of crime is reported in Phil-adelphia—which is as it should be. If there are no street curs, the people can ride the wave,—Washington Times.

A man usually has more respect for another man's size than for his age. — Atchison Globe.

BUYS 800 ACRES

Franklin Farrel of Ansonia Acquired Large Tract of Land in Seymour and Beacon Falls.

A detailed survey has been made during the past eight months and through the severest days of winter, says the Middletown Penny Prens, over a tract of land located partly in the town of Bescon Falls and partly in the town of Seymour, by a party of surveyors sent out from the office of W. G. Smith, engineer. The land has been acquired by Franklin Parrel of Ansonia, and he has kept his own counsel as to the uses to which it is to be put in the future.

The tract includes \$60 acres. The land is mostly woodland with a section of meadow land and at present is assessed at about \$15 an acre. On the land, however, are the Rimmon brook, the Skokorat brook and a section of the Hocanum brook, furnishing a water privilege of considerable proportions. It is supposed that it was for the acquirement of these water rights that the land was purchased by Mn. They have not finished the field work.

Farrel.

They have not finished the field world and are engaged in preparing the map. The only piece of land not included in the purchase of Mr. Farrel along the brooks in question and within the limits of the watershed, is the farm of William Jones. He held out for a high price and lost the chance of a sale.

It has been advanced by those face

It has been advanced by those fa-millar with the locality that the pur-pose of Mr. Farrel's purchase was to pre-empt the water rights in order to hold them in reserve for power pur-poses in connection with future man-ufacturing enterprises. Others thinks the tract has been secured for the Consolidated road to furnish power fee electric lines.

Revolt in Honduras which has been expected ever since Zelaya quit Nicaragua, because Zelaya is credited with having caused the election of Miguel R. Davin as president of Honduras, and the defeat of Manuel Boniall, is reported to have broken out. It is stated that Bonilla has a force of several hundred well-armed troops, and is prepared to put up a good fight. The standing army of Honduras is 500 men. The militianumbers 20,000, but its practical efficiency is a matter of serious doubt.

Honduras has half a million population, about 11 persons to the square mile. Tegucigalpa, its capital, has 34,000. Compulsory secular education prevails. There are schools of medicine, schools of law and a central university. About 700 pupils are in the normal schools fitting themselves for teaching. The government has been very progressive. But the foreign debt is over \$20,000,000, on which interest has been defaulted since 1872.

In such a land, with sparse and scaltered population, largely of Indian or mixed blood, yet struggling toward the highest civifization, civil war is fraught with awful consequences. It may be kept up for years by a force absolutely inadequate to hope for eventual victory. Meanwhile, brigandage checks industry and enterprise everywhere.—Brooklyn Engle.

Street Names.

They were presented to the president, and when Mr. Taft learned that they were from Connecticut he was delighted.

The president was insistent on learning their names and made cach boy answer, up distinctly. Each was inclined to say Harry, or John, or Reginal as if none had another name.

"You must speak out loud your other name, boys." Insisted the president, and as each boy so introduced himself he heard with delight the president repeat his name. One boy was named Bulkeley.

"Are you related to the semator?" asked Mr. Taft.

"I am his grand nephew," said the boy.
"Good," said Mr. Taft.

Then he called Secretary Carpenter to him to give the boys cards of admission to the White house, learning that the youths wanted to see the interior of the building.

"One thing we did not dare ask him and yet we wanted to know very much," said one of the boys on leaving the executive offices, "and that was that the president pose with us in a picture. We wanted to take him."
